Note: Later printings or uploads of these materials may have corrections already in place.

Kindergarten

KM1 Lesson 35 Student Notes for Digital Lessons: The blanks to be filled in should be under the blocks indicating 4 and 5.

Grade 1

G1 M2 Student Edition: Lesson 14 Exit Ticket problem 3 should read 15 – 9.

Grade 2

G2 M7 Assessments Answer Key: End-of-Mission Assessment #1b. The answer table should show that the Pencil measures 5 inches and the scissors 4 inches.

Grade 3

G3 M7 Assessments Answer Key: Mid-Mission Assessment #4b. The solution work should read "33 ft – 9 ft = w." In some versions, the subtraction symbol was incorrectly shown as a multiplication symbol.

G3 M7 Assessments Answer Key: End-of-Mission Assessment #1c. The solution work should read "All 4 sides are equal so 36 ÷ 4 = s." In some versions, the division symbol was incorrectly shown as a multiplication symbol.

Grade 4

G4 M6 Lesson 7 Exit Ticket question 2 in the bottom row of the table, the column for Expanded Form Fraction Notation should read: "(3 × 100) + (9 × 1/10) + (2 × 1/100)"

Grade 5

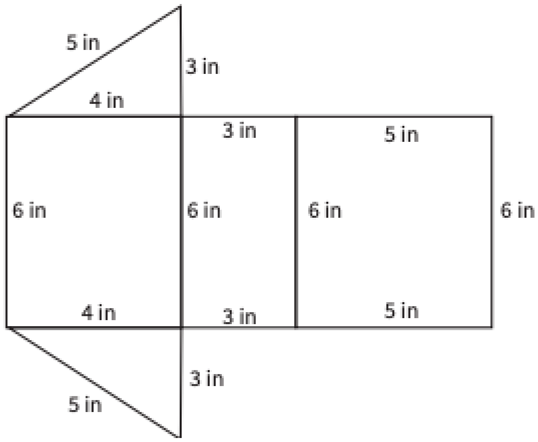
G5 M1 Lesson 16 Student Notes for Digital Lessons: Problem 2 should read, "Hannah mixed 6.83 lb of pretzels with 3.57 lb of popcorn."

Grade 6

G6 M1 Lesson 2 Digital Lesson Notes Question: The key should read "1 medium triangle = 1 sq. unit."

G6 M1 Lesson 11 Activity 3: #2 Side lengths of the large triangle should be 10cm and 20cm. The smaller triangle base should be 12cm and the shorter height should be 4cm. #3 shaded region was missing in the figure.

G6 M1 Lesson 15 Activity 2: The Teacher Lesson Materials Student Response to problem 1 should say, "Yes my net is a total of 12 in tall and 12 in long, so it will just fit on the sheet of paper." The net shown below should look like this:



G6 M1 Assessment Answer Key: End-of-Mission Assessment #6. The solution should use inches as the unit rather than feet.

G6 M3 Lesson 16 Teacher Lesson Materials: Warm-up activity Student Response #4 should be True.

G6 M4 Lesson 1 Teacher Lesson Materials: Activity 1 Task 1, option B is bricks and option C is notebooks.

G6 M4 Lesson 7 Teacher Lesson Materials: Activity 2 Task 1, Student Response for question 2a is ⅔ of a batch (or equivalent).

G6 M4 Lesson 8 Teacher Lesson Materials: Activity 2 title should be "One Container." Discussion Guidance for Activity 2 Task 1 should read:

- "What information was missing?" (The size of 1 group.)
- Look at the 3 division equations. What do you notice about the relationship between the size of the divisor and the size of the quotient across these 3 examples? (For each of these problems, the dividend, 15, is the same. As the divisor gets smaller, the quotient gets larger.)

G6 M4 Lesson 10 Digital Lesson Notes prompt: The equations should read a) 8 ÷ ¼, and b) 8 ÷ ¾. The reference diagram was missing in some versions.

G6 M5 Lesson 6

Digital Lesson Notes: the first equation should read 4.52 • 1,219 = 5,509.88 (not 550,988)

Student & Teacher Lesson Materials Activity 1: Noah's method should read $\frac{23}{100} \bullet \frac{15}{10} = \frac{345}{1000}$ (not $\frac{15}{100}$)

G6 M5 Lesson 8 Teacher Lesson Materials Task 1 Discussion Guidance, third bullet point should read, "(for part a since 4.6 is 46 tenths and 0.9 is 9 tenths, we can compute…"d

G6 M6 Lesson 5 Student Edition was missing the prompt for Activity 3 which can be found in the Teacher Lesson Materials.

G6 M6 Lesson 8 Student Edition was missing the prompt for Activity 2 Task 2 which can be found in the Teacher Lesson Materials.

G6 M6 Lesson 14 Student Notes for Digital Lessons should read $12 + 2^3 \div 4$

G6 M7 Lesson 11 Teacher Lesson Materials: Activity 1 Task 2, Part of the prompt didn't match the Student Lesson Materials prompt. Teacher materials should read $H = (-1, -5)$. Student Response for part a, H is in quadrant III.

G6 M7 Lesson 18 Teacher Lesson Materials: Activity 1 Task 3, Student response for part b should say skateboard sticker rather than flower sticker.

Grade 7

G7 M1 Lesson 10 Warm-up: The image of the ruler should show the centimeters divided into tenths. Some printings may show the centimeters divided into eighths.

G7 M2 Lesson 5 Digital Lesson Notes Question: In the prompt "now" should be "snow" in the phrase "number of inches of snow on the ground, *s*."

G7 M2 Lesson 14 Teacher Lesson Materials: The title for the Warm-up should be "Which One is the Bluest?"

G7 M6 Lesson 22 Exit Ticket: Column A part a) should read $12r + t - 4r + 6t$

Grade 8

G8 M1 Lesson 4 Teacher Lesson Materials: Warm-up answer image should show triangles with a base of 4 units like in the prompt.

G8 M2 Assessment Answer Key: End-of-Mission Assessment problem 5 rubrics for Nearing Understanding and Full Understanding should read "The student correctly identifies the polygons as not similar…"

G8 M3 Lesson 2 Digital Lesson Notes Question: The data table headings should read "Elapsed time (min), x" and "Distance (mi), y" to match the graph.

G8 M3 Lesson 7 Teacher Lesson Materials: Digital Lesson student response should read, "40 is the vertical intercept, which represents the height of the bamboo in centimeters to start with, or the amount after 0 days. 5 is the rate of change, or the centimeters that grow each day." Some printings used a different problem context than tracking bamboo growth in days.

G8 M5 Assessments: Mid-Mission Assessment problem 3 should read "...can be represented by the equation $t = 35 + 10m$."

G8 M6 Assessments: End-of-Mission Assessment problem 4 scatterplot was incorrect in the student-facing download, but correct in the Answer Key.

G8 M7 Lesson 15 Teacher and Student Lesson Materials: The Activity 1 Task 1 prompt should read, "Jupiter has a diameter of 1.43×10^5 km."

G8 M8 Assessments: Mid-Mission Assessment problem 2 should read "The square below has an area of 81 units^2." The square should be labeled "$A = 81$ units^2".
