About Zearn

Zearn is the 501(c)(3) nonprofit educational organization behind Zearn Math, the top-rated math learning platform used by 1 in 4 elementary-school students and by more than 1 million middle-school students nationwide. Zearn Math supports teachers with research-backed curriculum and digital lessons proven to double student academic growth across all levels of student proficiency. Zearn Math can be used flexibly to support a range of instructional needs including Tier 1 and 2 support, acceleration, intervention, tutoring, after school programming and summer programming.

about.zearn.org

Zearn Math is aligned to South Carolina's College- and Career-Ready Mathematics Standards.

We are committed to ensuring that our high-quality instructional materials align to SC CCR Mathematics Standards to fully support South Carolina's students and teachers. The tables on the following pages, organized by SC CCR Mathematics Standards, identify the alignment between each grade-level standard and Zearn Math lesson(s).

Table of Contents

Kindergarten	4
1st Grade	7
2nd Grade	12
3rd Grade	16
4th Grade	21
5th Grade	26
6th Grade	30
7th Grade	35
8th Grade	40

Kindergarten

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
Kindergarten Standards		Lessons
Data, Probability, and Statistical Reasoning		
K.DPSR.1.1	Sort pictures or objects into at least two categories. Count to determine how many are in each category. Limit to 20 pictures or objects.	Mission 1, Topic A, Lesson 1-3 Mission 1, Topic B, Lesson 4-6 Mission 1, Topic C, Lesson 7 Mission 2, Topic A, Lesson 1 Mission 2, Topic B, Lesson 7
K.DPSR.1.2	Answer questions about data organized in a t-chart, object graph, or picture graph.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
Measurement, Geometry, and Spatial Reasoning		
K.MGSR.1.1	Identify a penny, nickel, dime, and quarter.	Mission 5, Topic E, Lesson 20, 21, 23 Mission 6, Topic A, Lesson 1-2
K.MGSR.1.2	Directly compare two objects using words including <i>shorter, longer, taller, lighter, and heavier</i> .	Mission 3, Topic A, Lesson 1-3 Mission 3, Topic B, Lesson 4-7 Mission 3, Topic C, Lesson 8-12 Mission 3, Topic D, Lesson 13-15 Mission 3, Topic F, Lesson 20
K.MGSR.2.1	Identify and describe the attributes of triangles, squares, rectangles, circles, cubes, and spheres to include everyday situations.	Mission 2, Topic A, Lesson 1-4 Mission 2, Topic B, Lesson 6-7 Mission 2, Topic C, Lesson 9-10
K.MGSR.2.2	Describe relative positions of objects by appropriately using terms including <i>below, above, beside, between, inside, outside, in front of, or behind</i> .	Mission 2, Topic A, Lesson 5 Mission 2, Topic B, Lesson 8 Mission 2, Topic C, Lesson 10
Numerical Reasoning		
K.NR.1.1	Read, write, and represent the numerals 0 to 20 and represent the written numeral with concrete models.	Mission 1, Topic E, Lesson 17-22 Mission 1, Topic F, Lesson 24, 26-28 Mission 1, Topic G, Lesson 29-32 Mission 1, Topic H, Lesson 33-37

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
Kindergarten Standards		Lessons
		Mission 4, Topic A, Lesson 1-6 Mission 4, Topic B, Lesson 7-12 Mission 4, Topic E, Lesson 25, 27 Mission 5, Topic A, Lesson 1-4 Mission 5, Topic B, Lesson 6, 9 Mission 5, Topic C, Lesson 10-13
K.NR.1.2	Compose and decompose numbers from 11 to 19 into tens and ones by using concrete objects, pictorial models, or drawings to demonstrate understanding that the teen numbers are composed of one set of ten ones and a few more ones. Think of the term “written numeral” as standard form.	Mission 5, Topic A, Lesson 2-5 Mission 5, Topic B, Lesson 6-9 Mission 5, Topic C, Lesson 10-13 Mission 5, Topic E, Lesson 20-21, 23
K.NR.2.1	Count forward by ones and tens to 100 and backward from 10 by ones.	Mission 5, Topic C, Lesson 12-13 Mission 5, Topic D, Lesson 15-18
K.NR.2.2	Subitize a quantity of up to 10 objects in an organized arrangement without counting, explaining how one grouped the objects within the set to determine the total quantity.	<i>Digital Activities</i> <i>Zearn Math includes digital activities that allow for instantly recognizing a quantity in a structured arrangement.</i>
K.NR.2.3	Given a group of up to 20 objects, count the number of objects in that group and represent the number of objects with a written numeral. State the number of objects in a rearrangement of that group without recounting.	Mission 1, Topic B, Lesson 5-6 Mission 1, Topic C, Lesson 7-11 Mission 1, Topic D, Lesson 12-16 Mission 1, Topic E, Lesson 17-22 Mission 1, Topic F, Lesson 23-28 Mission 1, Topic G, Lesson 29-32 Mission 1, Topic H, Lesson 33-37 Mission 3, Topic F, Lesson 23-24 Mission 4, Topic H, Lesson 38 Mission 5, Topic A, Lesson 1-5 Mission 5, Topic B, Lesson 6 Mission 5, Topic C, Lesson 10-14 Mission 5, Topic D, Lesson 18-19 Mission 5, Topic E, Lesson 22
K.NR.2.4	Given a number from 0 to 20, count out that many objects.	Mission 1, Topic E, Lesson 17-22 Mission 1, Topic F, Lesson 23-27
K.NR.3.1	Compare up to 10 objects in one set to another set of up to 10 objects using the phrases <i>more than</i> , <i>fewer than</i> , or <i>the same as</i> .	Mission 3, Topic E, Lesson 17-19 Mission 3, Topic F, Lesson 20-24 Mission 3, Topic G, Lesson 25-28

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
Kindergarten Standards		Lessons
		Mission 5, Topic E, Lesson 22
Patterns, Algebra, and Functional Reasoning		
K.PAFR.1.1	Add and subtract number combinations within 5.	Mission 4, Topic G, Lesson 34-36 Mission 4, Topic H, Lesson 37, 39 Mission 6, Topic A, Lesson 1-2 Mission 6, Topic B, Lesson 5
K.PAFR.1.2	Create a sum of 10 using objects and drawings when given one of two addends 0-9, to include real-world situations.	Mission 4, Topic H, Lesson 39-40
K.PAFR.1.3	Compose and decompose numbers up to 10 in different ways. Record using objects or drawings.	Mission 1, Topic C, Lesson 9-11 Mission 1, Topic D, Lesson 14-15 Mission 4, Topic A, Lesson 2, 4-6 Mission 4, Topic B, Lesson 7-12 Mission 4, Topic D, Lesson 22-24 Mission 4, Topic E, Lesson 25-28 Mission 4, Topic F, Lesson 32
K.PAFR.1.4	Solve add-to/joining, take-from/separating, part-part-whole (total unknown), part-part whole (both addends unknown) real-world situations to find sums and differences within 10.	Mission 4, Topic C, Lesson 13-18 Mission 4, Topic D, Lesson 19-24 Mission 4, Topic F, Lesson 29-31 Mission 4, Topic G, Lesson 33-36 Mission 4, Topic H, Lesson 37-38
K.PAFR.2.1	Describe, extend, and create (to the next term) simple repeating patterns in the form of AB, AAB, ABB, and ABC.	Mission 5, Topic C, Lesson 11-13

1st Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
1st Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
1.DPSR.1.1	Sort pictures or objects into at least three categories (not to exceed 10 items in each category).	Grade K, Mission 1, Topic B, Lesson 5-6 Grade K, Mission 1, Topic C, Lesson 7 Mission 3, Topic D, Lesson 10-13
1.DPSR.1.2	Create a survey question and collect data with up to three categories. Create charts and graphs with a single unit scale to display the data. Use the graph to draw conclusions. Limit to one-step add-to, take-from, and part-part-whole questions.	Mission 3, Topic D, Lesson 10-13 <i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
Measurement, Geometry, and Spatial Reasoning		
1.MGSR.1.1	Order three objects by length from shortest to longest and longest to shortest using direct comparison.	Mission 3, Topic A, Lesson 1-3 Mission 3, Topic B, Lesson 5-6 Mission 3, Topic C, Lesson 9
1.MGSR.1.2	Use nonstandard physical objects to estimate and then measure the length of an item as the number of same size units of length with no gaps or overlaps.	Mission 3, Topic B, Lesson 4-6 Mission 3, Topic C, Lesson 7-9
1.MGSR.1.3	Use analog and digital clocks to tell and record time to the hour and half hour.	Mission 5, Topic D, Lesson 10-13 Mission 6, Topic E, Lesson 20-24
1.MGSR.1.4	Identify and write the values of a coin or a bill using a ¢ symbol for coin values or \$ symbol for bills. Limit to penny, nickel, dime, quarter, one-dollar bill, five-dollar bill, and ten-dollar bill.	Mission 4, Topic A, Lesson 6 Mission 6, Topic E, Lesson 20-21
1.MGSR.1.5	Count a collection of like coins to determine the total value of the set. Limit to pennies, nickels, and dimes with values not to exceed a dollar.	Mission 4, Topic A, Lesson 3 Mission 4, Topic C, Lesson 12 Mission 4, Topic F, Lesson 23-24
1.MGSR.2.1	Sort a mixed set of polygons and describe the reasoning used while sorting the polygons.	Mission 5, Topic A, Lesson 1-2

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
1st Grade Standards		Lessons
1.MGSR.2.2	Identify and describe the attributes of two dimensional shapes and three-dimensional shapes. Limit to triangle, square, rectangle, rhombus, hexagon, circle, cone, cube, cylinder, square pyramid, and sphere.	Grade K, Mission 2, Topic C, Lesson 9-10 Mission 5, Topic A, Lesson 1-3
1.MGSR.2.3	Identify and describe a given shape in everyday situations to include two-dimensional shapes and three-dimensional shapes. Limit to triangle, square, rectangle, rhombus, hexagon, circle, cone, cube, cylinder, square pyramid, and sphere.	Grade K, Mission 2, Topic C, Lesson 9-10 Mission 5, Topic A, Lesson 1-3
1.MGSR.2.4	Classify shapes as two-dimensional/flat or three-dimensional/solid and explain the reasoning using formal mathematical language. Limit to triangle, square, rectangle, rhombus, hexagon, circle, cone, cube, cylinder, square pyramid, and sphere.	Grade K, Mission 2, Topic A, Lesson 1 Grade K, Mission 2, Topic B, Lesson 6 Grade K, Mission 2, Topic C, Lesson 9-10
1.MGSR.2.5	Analyze and compare a pair of two dimensional shapes or a pair of three-dimensional shapes of assorted sizes and orientations using formal mathematical language. Limit to triangle, square, rectangle, rhombus, hexagon, circle, cone, cube, cylinder, square pyramid, and sphere.	Grade K, Mission 2, Topic C, Lesson 9-10 Mission 5, Topic A, Lesson 1-3
Numerical Reasoning		
1.NR.1.1	Read, write, and represent numbers to 100 using concrete models, drawings, standard form, base ten language, and equations in expanded form.	Mission 4, Topic A, Lesson 1-6 Mission 6, Topic B, Lesson 4,7,9
1.NR.1.2	Represent and explain that whole numbers 1 through 99 are organized into groups of tens and ones, and a digit has a different value depending on its placement.	Mission 2, Topic D, Lesson 26-29 Mission 4, Topic A, Lesson 1-4, 6 Mission 4, Topic F, Lesson 23 Mission 6, Topic B, Lesson 3-4, 8-9
1.NR.1.3	Compose and decompose whole numbers from 1 through 99 in more than one way using tens and ones. Explain and demonstrate each composition or decomposition with the use of concrete models, drawings, and/or equations.	Mission 2, Topic D, Lesson 26-29 Mission 4, Topic A, Lesson 2-4, 6 Mission 4, Topic F, Lesson 23 Mission 6, Topic B, Lesson 3-4

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
1st Grade Standards		Lessons
1.NR.1.4	Apply place value reasoning to identify the number that is one more and one less, ten more, and ten less than a given number with up to two digits.	Mission 4, Topic A, Lesson 5-6 Mission 6, Topic B, Lesson 5
1.NR.2.1	Count by ones forward or backward starting at any number up to 120 making accurate decade transitions.	Mission 4, Topic A, Lesson 1-4 Mission 4, Topic B, Lesson 8 Mission 4, Topic E, Lesson 20 Mission 6, Topic B, Lesson 7, 9
1.NR.2.2	Skip count by fives and tens from any multiple of five to 100, identifying place value patterns in the sequence.	Mission 4, Topic A, Lesson 1, 3-4 Mission 4, Topic C, Lesson 12 Mission 4, Topic F, Lesson 23-24
1.NR.3.1	Compare representations of two numbers up to 100 using the phrases <i>is greater than</i> , <i>is less than</i> , or <i>is equal to</i> (the same value as).	Mission 4, Topic B, Lesson 7-10 Mission 6, Topic B, Lesson 6
1.NR.4.1	Partition in multiple ways squares, rectangles, and circles into two or four equal-sized parts. Name the pieces as halves and fourths.	Mission 5, Topic C, Lesson 7-9 Mission 5, Topic D, Lesson 10
Patterns, Algebra, and Functional Reasoning		
1.PAFR.1.1	Determine and explain if an equation within 10 is true using a variety of equation formats.	Mission 1, Topic E, Lesson 17-19 Mission 2, Topic A, Lesson 6, 10 Mission 2, Topic B, Lesson 20 Mission 2, Topic C, Lesson 25
1.PAFR.1.2	Compose and decompose numbers less than or equal to 20 in more than one way. Record each composition or decomposition as an equation.	Grade K, Mission 5, Topic B, Lesson 6-9 Grade K, Mission 5, Topic C, Lesson 10-13 Grade K, Mission 5, Topic E, Lesson 20-21, 23
1.PAFR.1.3	Solve add-to, take-from, and part-part whole real-world situations to find sums and differences within 20. Situations include result or change unknown, both addends unknown, and total or one part unknown.	Mission 1, Topic B, Lesson 4-8 Mission 1, Topic C, Lesson 9-13 Mission 1, Topic G, Lesson 25 Mission 1, Topic H, Lesson 28-32 Mission 2, Topic A, Lesson 3-5, 7-9, 11 Mission 2, Topic B, Lesson 12-13, 17-18, 21

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
1st Grade Standards		Lessons
		Mission 2, Topic C, Lesson 22-24 Mission 2, Topic D, Lesson 27-29 Mission 3, Topic D, Lesson 10-13 Mission 4, Topic E, Lesson 19-22 Mission 6, Topic A, Lesson 1-2 Mission 6, Topic F, Lesson 25-27
1.PAFR.1.4	Add and subtract number combinations flexibly and accurately within 10.	Mission 1, Topic D, Lesson 14-16 Mission 1, Topic F, Lesson 21-24
1.PAFR.1.5	Apply and explain the <i>Commutative Property of Addition</i> to find the sum (through 20) of two addends and explain that the value does not change when the order of the two numbers changes.	Mission 1, Topic E, Lesson 19-20 Mission 1, Topic F, Lesson 21-24 Mission 2, Topic A, Lesson 6, 10
1.PAFR.1.6	Determine an unknown number in addition and subtraction equations within 10.	Mission 1, Topic D, Lesson 16 Mission 1, Topic G, Lesson 26-27 Mission 1, Topic H, Lesson 29-30, 32 Mission 2, Topic A, Lesson 10 Mission 2, Topic B, Lesson 14-21 Mission 2, Topic C, Lesson 22
1.PAFR.1.7	Find the sum of a two-digit number and a one-digit number or a two-digit number and a multiple of 10 (1–99) using concrete models, drawings, and strategies that reflect place value understanding, the inverse relationship of addition and subtraction, and the properties of the operations to justify the sum.	Mission 4, Topic C, Lesson 11-12 Mission 4, Topic D, Lesson 13-18 Mission 4, Topic F, Lesson 23-29 Mission 6, Topic C, Lesson 10-17 Mission 6, Topic D, Lesson 18-19
1.PAFR.1.8	Find the difference between two numbers that are multiples of 10, both in the range 10–90, and write the corresponding equation. Explain the reasoning used.	Mission 4, Topic C, Lesson 11 Mission 6, Topic C, Lesson 10
1.PAFR.2.1	Create, describe, and extend (to the next term) a growing shape pattern.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
1.PAFR.2.2	Create, describe, and extend (to three terms within a sequence) repeating patterns using AB, AAB, ABB, and ABC type patterns.	Grade K, Mission 5, Topic C, Lesson 11-13

2nd Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
2nd Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
2.DPSR.1.1	Create a survey question and collect data with up to four categories. Create tally charts, picture graphs, dot plots, and bar graphs with a single-unit scale to read the graph, answer questions, and draw conclusions. Limit to one-step add-to, take-from, part-part-whole, and comparison questions.	Mission 7, Topic A, Lesson 1-5 Mission 7, Topic F, Lesson 23-26
Measurement, Geometry, and Spatial Reasoning		
2.MGSR.1.1	Select and use appropriate tools to estimate and measure length of an object or distance to the nearest customary unit. Limit to inches, feet, and yards.	Mission 2, Topic A, Lesson 1-3 Mission 2, Topic B, Lesson 4-5 Mission 2, Topic C, Lesson 6 Mission 2, Topic D, Lesson 9 Mission 7, Topic C, Lesson 14-15 Mission 7, Topic D, Lesson 16-17
2.MGSR.1.2	Use analog and digital clocks to tell and record time in five-minute intervals, identifying AM and PM.	Mission 8, Topic D, Lesson 13-15
2.MGSR.1.3	Determine the value of mixed sets of coins or bills in mathematical and real-world situations and record the value using a ¢ or \$ symbol. Limit to pennies, nickels, dimes, and quarters up to a dollar; one-dollar bills, five-dollar bills, ten-dollar bills, and twenty-dollar bills up to \$100, and add-to or take-from problem types.	Mission 3, Topic D, Lesson 10 Mission 7, Topic B, Lesson 6-10, 12-13
2.MGSR.2.1	Identify and describe a given shape in everyday situations to include two-dimensional shapes and three-dimensional shapes. Limit to triangle, quadrilateral, pentagon, hexagon, octagon, circle, cone, cube, cylinder, rectangular prism, square pyramid, and sphere.	Mission 8, Topic A, Lesson 1-5 Mission 8, Topic B, Lesson 6
2.MGSR.2.2	Classify shapes as polygons or non polygons and defend that determination based on their attributes.	Mission 8, Topic A, Lesson 2-3

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
2nd Grade Standards		Lessons
2.MGSR.2.3	Classify two-dimensional shapes as triangles or quadrilaterals and justify each classification.	Mission 8, Topic A, Lesson 2-4
Numerical Reasoning		
2.NR.1.1	Read, write, and represent numbers up to 999 using concrete models, drawings, standard form, base ten language, and equations in expanded form.	Mission 3, Topic C, Lesson 4-7 Mission 3, Topic D, Lesson 8-9 Mission 3, Topic E, Lesson 13-14
2.NR.1.2	Represent and explain that whole numbers 1 through 999 are organized into groups of hundreds, tens, and ones, and a digit has a different value depending on its placement.	Mission 3, Topic A, Lesson 1 Mission 3, Topic B, Lesson 2-3 Mission 3, Topic C, Lesson 4-7 Mission 3, Topic D, Lesson 8-9 Mission 3, Topic E, Lesson 11-15
2.NR.1.3	Compose and decompose whole numbers from 1 through 999 in more than one way using hundreds, tens, and ones. Explain and demonstrate each composition or decomposition with the use of concrete models, drawings, and equations.	Mission 3, Topic A, Lesson 1 Mission 3, Topic C, Lesson 4-7 Mission 3, Topic D, Lesson 8-9 Mission 3, Topic E, Lesson 11-15
2.NR.1.4	Apply place value reasoning to identify the number that is 10 more, 10 less, 100 more, and 100 less than a given three-digit number through 999.	Mission 3, Topic G, Lesson 19-20 Mission 4, Topic D, Lesson 17 Mission 5, Topic A, Lesson 1-2
2.NR.2.1	Count forward and backward by ones, tens, and hundreds from any number within 999 and identify patterns in the sequence.	Mission 3, Topic B, Lesson 2-3 Mission 3, Topic C, Lesson 4 Mission 3, Topic D, Lesson 8-9 Mission 3, Topic E, Lesson 12-15 Mission 3, Topic G, Lesson 19-21 Mission 7, Topic E, Lesson 21 Mission 8, Topic D, Lesson 14
2.NR.3.1	Compare representations of whole numbers up to 999 and write a comparison statement using words and symbols. Limit to <i>is equal to</i> ($=$), <i>is less than</i> ($<$), and/or <i>is greater than</i> ($>$).	Mission 3, Topic F, Lesson 16-18
2.NR.3.2	When given a two-digit number, identify which multiple of 10 the number is closest to.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
2nd Grade Standards		Lessons
2.NR.4.1	Partition in multiple ways squares, rectangles, and circles into two or four equal sized parts, and describe the parts using the words <i>halves</i> , <i>fourths</i> , <i>a half of</i> , and <i>a fourth of</i> (not quarters).	Mission 8, Topic B, Lesson 7-8 Mission 8, Topic C, Lesson 9-12 Mission 8, Topic D, Lesson 13
2.NR.4.2	Explain that when partitioning a square, rectangle, or circle into two or four equal parts, the parts become smaller as the number of parts increases.	Grade 1, Mission 5, Topic C, Lesson 9
Patterns, Algebra, and Functional Reasoning		
2.PAFR.1.1	Use a strategy to accurately find sums and differences of two-digit numbers within 100 and justify the sum or difference.	Mission 1, Topic B, Lesson 3, 5-6, 8 Mission 4, Topic A, Lesson 2-4 Mission 4, Topic B, Lesson 6-8, 10 Mission 4, Topic C, Lesson 11-13 Mission 7, Topic B, Lesson 7-8, 11-13
2.PAFR.1.2	Determine and explain if an equation (within 20) is true using a variety of equation formats.	Grade 1, Mission 1, Topic E, Lesson 17-19 Grade 1, Mission 2, Topic C, Lesson 25
2.PAFR.1.3	Solve one-step add-to, take-from, part part-whole, and additive comparison real-world situations through 99 with the unknown in any position.	Mission 1, Topic B, Lesson 3, 5-6, 8 Mission 4, Topic A, Lesson 1-5 Mission 4, Topic B, Lesson 6-10 Mission 4, Topic C, Lesson 11-14, 16 Mission 4, Topic F, Lesson 31 Mission 7, Topic B, Lesson 7-8, 12-13
2.PAFR.1.4	For any number from 0 to 99, find the number that makes 100 when added to the given number.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
2.PAFR.1.5	Add and subtract number combinations flexibly and accurately within 20.	Mission 1, Topic A, Lesson 1-2 Mission 1, Topic B, Lesson 4, 7
2.PAFR.1.6	Apply the <i>Associative Property of Addition</i> to find the sum (through 20) of three addends and explain that the value can be found using various grouping strategies.	Grade 1, Mission 2, Topic A, Lesson 1

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
2nd Grade Standards		Lessons
2.PAFR.1.7	Determine the unknown number in addition and subtraction equations within 20, with the unknown in any position.	Grade 1, Mission 1, Topic D, Lesson 16 Grade 1, Mission 1, Topic H, Lesson 29-30, 32 Grade 1, Mission 2, Topic A, Lesson 10 Grade 1, Mission 2, Topic B, Lesson 20
2.PAFR.1.8	Sort a collection of 20 or fewer objects into two groups to determine if the number of objects is even or odd.	Mission 6, Topic D, Lesson 17-19
2.PAFR.1.9	Find the total number of objects arranged in equal groups or in a rectangular array and write an addition equation to express the total as a sum (up to 25) of equal addends.	Mission 6, Topic A, Lesson 1-4 Mission 6, Topic B, Lesson 5-9 Mission 6, Topic C, Lesson 10-15
2.PAFR.2.1	Describe, extend, and create a growing shape pattern with up to three terms within a sequence.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
2.PAFR.2.2	Create, describe, and extend an appropriate one-step rule for number patterns using addition and subtraction within 100.	Mission 3, Topic G, Lesson 21 Mission 4, Topic A, Lesson 1 Mission 5, Topic A, Lesson 1 Mission 6, Topic C, Lesson 16

3rd Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
3rd Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
3.DPSR.1.1	Collect and organize categorical and numerical data based on observations, surveys, experiments, and investigations with whole number values using tables, scaled picture graphs, scaled bar graphs, or dot plots. Use titles and labels. Limit scales to multiples of 1, 2, 5, and 10.	Mission 6, Topic A, Lesson 1-4
3.DPSR.1.2	Solve one-step, real-world situations using whole number data represented in tables, scaled picture graphs, scaled bar graphs, or dot plots. Limit scales to multiples of 1, 2, 5, and 10.	Mission 6, Topic A, Lesson 4
3.DPSR.2.1	Identify the possible outcomes of a simple event.	<i>Zearn includes lessons on probability in Grade 7, however it is recommended that teachers use supplemental materials to fully address this standard.</i>
Measurement, Geometry, and Spatial Reasoning		
3.MGSR.1.1	Determine the area of squares and rectangles presented in relevant problems by covering the space with square units and counting the total number of units needed.	Mission 4, Topic A, Lesson 1-4 Mission 4, Topic B, Lesson 5-7 Mission 4, Topic D, Lesson 13
3.MGSR.1.2	Determine the perimeter of regular and irregular triangles and quadrilaterals with known side lengths.	Mission 7, Topic C, Lesson 10-17 Mission 7, Topic D, Lesson 18-22 Mission 7, Topic E, Lesson 23-30
3.MGSR.1.3	Determine if a real-world situation is an example of the need for finding the area or the perimeter of a figure.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
3.MGSR.2.1	Determine the value of any collection of coins, not to exceed \$5. Write the amount in the form of dollars and cents using the decimal notation. Limit to penny, nickel, dime, and quarter.	Grade 2, Mission 3, Topic D, Lesson 10 Grade 2, Mission 7, Topic B, Lesson 6-10, 12-13

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
3rd Grade Standards		Lessons
3.MGSR.2.2	Use analog and digital clocks to tell and record time to 1-minute intervals, identifying AM and PM.	Mission 2, Topic A, Lesson 1-3
3.MGSR.2.3	Solve problems involving addition and subtraction of time intervals to determine elapsed time to the nearest half hour.	Mission 2, Topic A, Lesson 4-5 Mission 2, Topic D, Lesson 17 Mission 2, Topic E, Lesson 18, 21
3.MGSR.2.4	Estimate and measure length/distance to the nearest half inch and nearest whole centimeter.	Mission 6, Topic B, Lesson 5
3.MGSR.2.5	Determine which unit of liquid volume is most appropriate to measure in real-world situations. Limit to fluid ounces, cups, pints, quarts, gallons, milliliters, and liters.	Mission 2, Topic B, Lesson 6-11 Mission 2, Topic C, Lesson 12 Mission 2, Topic D, Lesson 15-17 Mission 2, Topic E, Lesson 18-21
3.MGSR.3.1	Describe and draw right, acute, obtuse, and straight angles. Identify these angle types in two-dimensional figures including triangles and quadrilaterals.	Grade 4, Mission 4, Topic A, Lesson 1-4 Grade 4, Mission 4, Topic D, Lesson 13-15
3.MGSR.3.2	Identify, describe, and draw points, lines, line segments, rays, intersecting lines, perpendicular lines, and parallel lines. Identify these in two-dimensional figures.	Grade 4, Mission 4, Topic D, Lesson 13-15
Numerical Reasoning		
3.NR.1.1	Read, write, and represent whole numbers through the thousands period (0 to 999,999) on a number line and in standard, base ten language, word, and equations in expanded form.	<i>Digital Activities</i> <i>Zearn Math includes digital activities that focus on writing numbers in standard form, expanded form, and word form.</i>
3.NR.1.2	Compose and decompose 4-digit whole numbers in multiple ways using thousands, hundreds, tens, and ones.	Mission 2, Topic D, Lesson 15-17 <i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
3.NR.1.3	Compare two whole numbers up to 999,999 based on the place value of the digits using the symbols for is equal to ($=$), is less than ($<$), or is greater than ($>$).	Grade 4, Mission 1, Topic A, Lesson 3 Grade 4, Mission 1, Topic B, Lesson 4-6

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
3rd Grade Standards		Lessons
3.NR.1.4	Round whole numbers from 0 to 1,000 to the nearest 10 or 100.	Mission 2, Topic C, Lesson 12-14 Mission 2, Topic D, Lesson 17 Mission 2, Topic E, Lesson 20-21
3.NR.2.1	Identify unit fractions as the quantity formed by one part when a whole is partitioned into 2, 3, 4, 6, or 8 equal-sized parts. Express each part as a unit fraction of the whole.	Mission 5, Topic A, Lesson 1-4 Mission 5, Topic B, Lesson 5-9 Mission 5, Topic C, Lesson 10-13 Mission 5, Topic E, Lesson 20, 22, 24-25, 27 Mission 5, Topic F, Lesson 28-29
3.NR.2.2	Represent fractions from 0 to 1 using concrete, set, area, and linear models, and write them in standard form and word form. Limit denominators to 2, 3, 4, 6, and 8.	Mission 5, Topic A, Lesson 1-4 Mission 5, Topic D, Lesson 14-17, 19 Mission 5, Topic E, Lesson 21, 23, 26
3.NR.2.3	Express whole numbers as fractions and identify fractions that are equivalent to whole numbers. Limit denominators to 1, 2, 3, 4, 6, and 8.	Mission 5, Topic C, Lesson 10-11, 13 Mission 5, Topic D, Lesson 16-19 Mission 5, Topic E, Lesson 20-27 Mission 5, Topic F, Lesson 28-29
3.NR.2.4	Compose fractions between the whole numbers 0 and 5 using unit fractions. Record the composition as a mixed number or fraction greater than 1. Limit denominators to 2, 3, 4, 6, and 8.	Grade 4, Mission 5, Topic A, Lesson 1-6 Grade 4, Mission 5, Topic D, Lesson 16-21 Grade 4, Mission 5, Topic E, Lesson 22-25 Grade 4, Mission 5, Topic F, Lesson 29-34
3.NR.2.5	Recognize two fractions are equivalent based on the same size whole. Limit denominators to 2, 3, 4, 6, and 8, and fractions should be limited to fractions between 0 and 1.	Mission 5, Topic E, Lesson 20-27
3.NR.2.6	Compare two fractions with the same numerator or same denominator based on the same size whole by reasoning about their size. Use the symbols for <i>is equal to</i> ($=$), <i>is less than</i> ($<$), or <i>is greater than</i> ($>$). Limit denominators to 2, 3, 4, 6, and 8, and fractions should be limited to fractions between 0 and 1.	Mission 5, Topic C, Lesson 10-11, 13 Mission 5, Topic D, Lesson 18-19

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
3rd Grade Standards		Lessons
Patterns, Algebra, and Functional Reasoning		
3.PAFR.1.1	Use a strategy to compute sums and differences up to 1,000.	Mission 2, Topic A, Lesson 4-5 Mission 2, Topic B, Lesson 10-11 Mission 2, Topic D, Lesson 15-17 Mission 2, Topic E, Lesson 18-21
3.PAFR.1.2	Multiply whole numbers (factors 0–10) and divide whole numbers (divisors 1–10) using a model and write a corresponding equation.	Mission 1, Topic A, Lesson 1-3 Mission 1, Topic B, Lesson 4-6 Mission 1, Topic C, Lesson 7-10 Mission 1, Topic D, Lesson 11-13 Mission 1, Topic E, Lesson 14-17 Mission 1, Topic F, Lesson 18-19 Mission 3, Topic A, Lesson 2-3 Mission 3, Topic B, Lesson 7 Mission 3, Topic C, Lesson 9-11 Mission 3, Topic D, Lesson 12-15 Mission 3, Topic E, Lesson 16-17 Mission 3, Topic F, Lesson 20
3.PAFR.1.3	Multiply two whole numbers from 0 to 10 and divide using related facts flexibly and accurately.	Mission 1, Topic D, Lesson 11-13 Mission 1, Topic E, Lesson 14, 16 Mission 3, Topic B, Lesson 4-5 Mission 3, Topic C, Lesson 10 Mission 3, Topic D, Lesson 12-13 Mission 3, Topic E, Lesson 16-17 Mission 3, Topic F, Lesson 19
3.PAFR.2.1	Determine the unknown whole number in a multiplication or division real-world situation relating three whole numbers when the unknown is a missing factor, product, dividend, divisor, or quotient.	Mission 1, Topic B, Lesson 6 Mission 1, Topic C, Lesson 8 Mission 1, Topic D, Lesson 12 Mission 1, Topic E, Lesson 17 Mission 3, Topic A, Lesson 3 Mission 3, Topic D, Lesson 13 Mission 3, Topic E, Lesson 16
3.PAFR.2.2	Solve one- and two-step real-world situations using addition and subtraction up to 1,000.	Mission 1, Topic F, Lesson 21 Mission 3, Topic E, Lesson 18 Mission 7, Topic A, Lesson 1-3
3.PAFR.2.3	Identify, create, and extend numerical patterns to determine the next three terms in an addition or subtraction sequence.	Mission 3, Topic A, Lesson 1 Mission 3, Topic D, Lesson 13-14 Mission 3, Topic E, Lesson 16-17 Mission 3, Topic F, Lesson 19

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
3rd Grade Standards		Lessons
		<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
3.PAFR.2.4	Recognize that a whole number is a multiple of each of its factors 1–10.	Grade 4, Mission 3, Topic F, Lesson 22-24

4th Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
4th Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
4.DPSR.1.1	Collect and organize numerical and categorical data based on observations, investigations, surveys, and experiments using tables, scaled bar graphs, or dot plots. Use titles and labels. Scales to include whole numbers, halves, and fourths.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
4.DPSR.1.2	Solve one-step, real-world situations using whole number and fractional data represented in tables, scaled picture graphs, scaled bar graphs, or dot plots. Limit to like denominators of 2, 3, 4, 5, 6, 8, and 10.	Mission 5, Topic E, Lesson 28 Mission 5, Topic G, Lesson 40
4.DPSR.2.1	Determine the possible outcomes of a simple event and record the probability as certain, possible, or impossible.	<i>Zearn includes lessons on probability in Grade 7, however it is recommended that teachers use supplemental materials to fully address this standard.</i>
Measurement, Geometry, and Spatial Reasoning		
4.MGSR.1.1	Apply perimeter formulas for rectangles to solve real-world situations including finding the perimeter, given the side lengths, and finding an unknown side length.	Mission 3, Topic A, Lesson 1-3 Mission 7, Topic D, Lesson 15-16
4.MGSR.1.2	Apply area formulas for rectangles to solve real-world situations. Use square units to label area measurements.	Mission 3, Topic A, Lesson 1-3 Mission 7, Topic D, Lesson 15-16
4.MGSR.2.1	Calculate the value of a collection of coins and bills in real-world situations to determine whether there is enough money to make a purchase. Justify based on comparison of money amounts.	Mission 6, Topic E, Lesson 16
4.MGSR.2.2	Solve real-world situations involving addition and subtraction of time intervals within 60 minutes to find elapsed time, start time, or end time.	Grade 3, Mission 2, Topic A, Lesson 1-5 Grade 3, Mission 2, Topic D, Lesson 15-17

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
4th Grade Standards		Lessons
		Grade 3, Mission 2, Topic E, Lesson 18, 21
4.MGSR.2.3	Measure length to the nearest quarter inch.	Grade 3, Mission 6, Topic B, Lesson 5
4.MGSR.2.4	Measure weight in customary units and metric units to the nearest whole unit. Limit to ounces, pounds, grams, and kilograms.	Grade 3, Mission 2, Topic B, Lesson 7-8, 11
4.MGSR.2.5	Convert customary units of length, weight, and liquid volume from a larger unit to a smaller unit, given direct comparisons of the two measurements and/or the unit equivalencies within a single system of measurement. Limit to inches, feet, yards, ounces, pounds, fluid ounces, cups, pints, quarts, and gallons when given unit equivalencies.	Mission 2, Topic A, Lesson 1-3 Mission 2, Topic B, Lesson 4 Mission 4, Topic A, Lesson 4 Mission 7, Topic A, Lesson 1-3 Mission 7, Topic B, Lesson 6-9 Mission 7, Topic C, Lesson 12-13
4.MGSR.3.1	Classify triangles according to side length (<i>isosceles, equilateral, scalene</i>) and angle measure (<i>acute, obtuse, right, equiangular</i>).	Mission 4, Topic D, Lesson 13-14
4.MGSR.3.2	Classify quadrilaterals in a hierarchy based on their shared attributes.	Grade 3, Mission 7, Topic B, Lesson 4 Mission 4, Topic D, Lesson 15-16 Grade 5, Mission 5, Topic C, Lesson 16-17 Grade 5, Mission 5, Topic D, Lesson 18-21
Numerical Reasoning		
4.NR.1.1	Read and write whole numbers through the millions period (0 to 999,999,999) in word, standard, and equations in expanded form.	Mission 1, Topic A, Lesson 3-4 Mission 1, Topic B, Lesson 5-6
4.NR.1.2	Estimate sums, differences, products, and quotients of multi-digit whole numbers, using rounding and place value to determine the reasonableness of real-world problem solutions. Write an equation for the estimate.	Mission 1, Topic C, Lesson 7-10 Mission 1, Topic D, Lesson 12 Mission 1, Topic E, Lesson 16 Mission 1, Topic F, Lesson 17-19 Mission 7, Topic A, Lesson 4 Mission 7, Topic B, Lesson 10

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
4th Grade Standards		Lessons
		Mission 7, Topic C, Lesson 12-13, 15
4.NR.1.3	Order whole numbers within 999,999 (no more than 3) in ascending or descending order and record the comparison(s) using symbols for <i>is less than</i> (<) and/or <i>is greater than</i> (>).	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
4.NR.2.1	Represent fractions with denominators of 10 and 100 in words, models, and decimal notations.	Mission 6, Topic A, Lesson 1-3 Mission 6, Topic B, Lesson 4-6 Mission 6, Topic C, Lesson 11 Mission 6, Topic D, Lesson 12-14 Mission 6, Topic E, Lesson 15
4.NR.2.2	Compare decimal numbers to the hundredths using the benchmarks 0, 0.5, and 1.0, concrete area, and linear models. Use the symbols for <i>is equal to</i> (=), <i>is less than</i> (<), and/or <i>is greater than</i> (>).	Mission 6, Topic C, Lesson 9-11
4.NR.2.3	Generate equivalent fractions, including fractions greater than 1, using multiple representations. Limit fractions to denominators of 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, 50, and 100.	Mission 5, Topic B, Lesson 7-11 Mission 5, Topic C, Lesson 14-15 Mission 5, Topic D, Lesson 21 Mission 5, Topic E, Lesson 27 Mission 6, Topic B, Lesson 5 Mission 6, Topic D, Lesson 12
4.NR.2.4	Represent the composition and decomposition of fractions with the same denominator, including mixed numbers and fractions greater than 1, using multiple representations. Limit fractions to denominators of 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, 50, and 100.	Mission 5, Topic A, Lesson 1-6 Mission 5, Topic D, Lesson 16-21 Mission 5, Topic E, Lesson 22-25 Mission 5, Topic F, Lesson 29-34
4.NR.2.5	Explain and demonstrate how a mixed number is equivalent to a fraction greater than 1 and how a fraction greater than 1 is equivalent to a mixed number. Limit fractions to denominators of 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, 50, and 100.	Grade 3, Mission 5, Topic B, Lesson 9 Grade 3, Mission 5, Topic D, Lesson 16 Grade 3, Mission 5, Topic E, Lesson 26
4.NR.2.6	Compare fractions and mixed numbers with like and unlike denominators applying benchmark fractions such as 0, $\frac{1}{2}$, and 1 using the symbols for <i>is equal to</i> (=), <i>is less than</i> (<), or <i>is greater than</i> (>). Limit fractions	Grade 3, Mission 5, Topic D, Lesson 18-19 Grade 3, Mission 5, Topic F, Lesson 28-30

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
4th Grade Standards		Lessons
to denominators of 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, 50, and 100.		Mission 5, Topic C, Lesson 12-15 Mission 5, Topic E, Lesson 26-27
Patterns, Algebra, and Functional Reasoning		
4.PAFR.1.1	Use a strategy to accurately compute sums and differences of whole numbers up to 100,000 and justify the sum or difference.	Mission 1, Topic D, Lesson 11-12 Mission 1, Topic E, Lesson 13-16 Mission 1, Topic F, Lesson 17-19
4.PAFR.1.2	Compute the product of a one-digit whole number times a multiple of 10 (from 10 to 90) and 100 (from 100 to 900) based on place value and properties of operations.	Grade 3, Mission 3, Topic F, Lesson 19-20
4.PAFR.1.3	Decompose numbers by the value of each digit to multiply whole numbers up to four digits by a one-digit number and two 2-digit whole numbers.	Mission 3, Topic B, Lesson 4-6 Mission 3, Topic C, Lesson 7-11 Mission 3, Topic H, Lesson 34-38
4.PAFR.1.4	Use a strategy to divide up to a four-digit dividend by a one-digit divisor, with and without remainders. Justify the calculation.	Mission 3, Topic E, Lesson 14-21 Mission 3, Topic G, Lesson 26-33
4.PAFR.2.1	Use a strategy to accurately compute sums and differences of fractions with like denominators and justify the reasonableness of the answer. Limit denominators to 2, 3, 4, 5, 6, 8, 10, 12, 25, and 100.	Mission 5, Topic D, Lesson 16-21 Mission 5, Topic E, Lesson 22, 24-25 Mission 5, Topic F, Lesson 29-34
4.PAFR.2.2	Use fraction and decimal equivalencies to add and subtract tenths and hundredths, to include mixed numbers and fractions greater than 1.	Mission 6, Topic D, Lesson 12-14
4.PAFR.2.3	Represent and compute the product of a whole number times a unit fraction. Limit denominators to 2, 3, 4, 5, 6, 8, 10, 12, 25, and 100.	Mission 5, Topic A, Lesson 3, 5-6 Mission 5, Topic E, Lesson 23-25 Mission 5, Topic G, Lesson 35-40
4.PAFR.2.4	Interpret a fraction as an equal sharing division situation, where a quantity (the numerator) is divided into equal parts (the denominator) to include real-world situations.	Grade 5, Mission 4, Topic B, Lesson 2-5

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
4th Grade Standards		Lessons
4.PAFR.3.1	Find all factor pairs for a whole number in the range 1–50. Determine whether the whole number is prime or composite.	Mission 3, Topic F, Lesson 22-25
4.PAFR.3.2	Describe and extend a numerical pattern that follows a rule using function tables and real-world situations.	Mission 5, Topic H, Lesson 41
4.PAFR.3.3	Solve real-world situations involving multiplicative comparison situations and write equations to represent the problem using a variable for the unknown.	Mission 3, Topic A, Lesson 2-3 Mission 3, Topic B, Lesson 5-6 Mission 3, Topic C, Lesson 9-11 Mission 3, Topic D, Lesson 12-13 Mission 3, Topic G, Lesson 26 Mission 5, Topic G, Lesson 39-40 Mission 7, Topic A, Lesson 4 Mission 7, Topic C, Lesson 14
4.PAFR.3.4	Solve two-step, real-world situations using the four operations involving whole number answers. Represent the problem using an equation with a variable as the unknown in any position.	Mission 1, Topic D, Lesson 12 Mission 1, Topic E, Lesson 16 Mission 1, Topic F, Lesson 17-19 Mission 3, Topic D, Lesson 12-13 Mission 3, Topic E, Lesson 14, 19 Mission 3, Topic G, Lesson 31-32

5th Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
5th Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
5.DPSR.1.1	Describe data by determining the range and mode, including whole numbers, fractional data, and decimal data. Limit fractions to denominators of 2, 3, 4, 5, 6, 8, and 10, and limit decimals to decimals through the hundredths place.	<i>Zearn includes lessons on determining the range and mode in Grade 6, however it is recommended that teachers use supplemental materials to fully address this standard.</i>
5.DPSR.1.2	Solve two-step, real-world situations using whole number and fractional data represented in tables, line graphs, scaled bar graphs, or dot plots. Limit fractions to denominators of 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, 50, and 100.	Mission 4, Topic A, Lesson 1
5.DPSR.1.3	Analyze categorical and numerical data in graphical displays to make predictions or draw conclusions. Limit displays to tables, bar graphs, dot plots, line graphs, and circle graphs with scales of whole numbers, halves, fourths, and eighths.	Mission 4, Topic A, Lesson 1
5.DPSR.2.1	Represent the probability of a simple event as 0, a fraction, or 1. Limit fractions to denominators of 2, 3, 4, 5, 6, 8, 10, 20, and 25.	Grade 7, Mission 8, Topic A, Lesson 3
Measurement, Geometry, and Spatial Reasoning		
5.MGSR.1.1	Solve problems involving area and perimeter of composite figures by decomposing with rectangles.	Grade 6, Mission 1, Topic A, Lesson 1-3
5.MGSR.1.2	Estimate and measure the volume of a right rectangular prism with whole-number side lengths by filling it with unit cubes. Use concrete materials or grid paper with a shape drawn on it.	Mission 5, Topic A, Lesson 1-3 Mission 5, Topic B, Lesson 5
5.MGSR.2.1	Given the unit equivalencies, convert within a single system of measurement from larger units to smaller units and smaller units to larger units for length, weight, liquid volume, and time. Use these	Mission 1, Topic A, Lesson 4 Mission 2, Topic D, Lesson 13-15 Mission 4, Topic C, Lesson 9 Mission 4, Topic E, Lesson 19-20

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
5th Grade Standards		Lessons
	conversions in solving real-world situations. Limit units to inches, feet, yards, ounces, pounds, fluid ounces, cups, pints, quarts, gallons, seconds, minutes, hours, milli-, centi-, kilo-, and base units (grams, liters, meters).	Mission 5, Topic B, Lesson 5
5.MGSR.2.2	Estimate and measure lengths to the nearest eighth of an inch or nearest millimeter.	Mission 1, Topic A, Lesson 4 Mission 4, Topic C, Lesson 9 Mission 4, Topic E, Lesson 19-20
5.MGSR.3.1	Identify the origin, x-axis, and y-axis in the coordinate system. Write, plot, and label ordered pairs, including values in a function table, in the first quadrant of the coordinate plane.	Mission 6, Topic A, Lesson 1-6 Mission 6, Topic B, Lesson 7-12 Mission 6, Topic C, Lesson 13-17 Mission 6, Topic D, Lesson 18, 20
5.MGSR.3.2	Represent mathematical and real-world situations by graphing, labeling, and interpreting points in the first quadrant of the coordinate plane.	Mission 6, Topic C, Lesson 13-17 Mission 6, Topic D, Lesson 18-20
Numerical Reasoning		
5.NR.1.1	Read, write, and represent multi-digit numbers from 0 to 999 with decimals to the thousandths place. Use pictorial, word, standard, or expanded form with fraction or decimal notation.	Mission 1, Topic B, Lesson 5-6 Mission 1, Topic D, Lesson 9-10 Mission 1, Topic E, Lesson 11-12 Mission 1, Topic F, Lesson 13-15
5.NR.1.2	Explain how the value of a digit in a multi digit number changes if the digit moves one or more places to the left or right in the base ten system. Include decimals to the thousandths place.	Grade 4, Mission 1, Topic A, Lesson 2-3 Mission 1, Topic A, Lesson 1-4 Mission 2, Topic A, Lesson 2 Mission 2, Topic E, Lesson 16
5.NR.1.3	Round decimal numbers up to 999 with decimals to the thousandths place to the nearest hundredth, tenth, or whole number.	Mission 1, Topic C, Lesson 7-8
5.NR.1.4	Use patterns to explain the exponents when multiplying and dividing by powers of 10, not to exceed the thousands place.	Mission 1, Topic A, Lesson 1-4 Mission 2, Topic A, Lesson 1 Mission 2, Topic C, Lesson 10-12 Mission 2, Topic D, Lesson 13-14 Mission 2, Topic G, Lesson 24

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
5th Grade Standards		Lessons
5.NR.2.1	Compare fractions and mixed numbers with like and unlike denominators of 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, and 100 using equivalence to create a common denominator. Use the symbols for is less than ($<$), is more than ($>$), or is equal to ($=$) to record the comparison.	Grade 4, Mission 5, Topic C, Lesson 12-15
Patterns, Algebra, and Functional Reasoning		
5.PAFR.1.1	Use a strategy to compute the product of a two- or three-digit factor times a two-digit factor to include real-world situations.	Mission 2, Topic B, Lesson 5-9 Mission 2, Topic C, Lesson 10-12 Mission 2, Topic F, Lesson 20-23
5.PAFR.1.2	Use a strategy to compute the quotient of a multi-digit whole number dividend divided by a two-digit whole number divisor, with and without remainders, to include real-world situations. Limit the dividend to four digits.	Mission 2, Topic E, Lesson 16-18 Mission 2, Topic F, Lesson 19-23 Mission 2, Topic H, Lesson 28-29 Mission 4, Topic G, Lesson 30-31
5.PAFR.1.3	Use a strategy to compute sums and differences of decimal numbers to the hundredths.	Mission 1, Topic D, Lesson 9-10
5.PAFR.1.4	Use a strategy to multiply a one-digit whole number by a decimal to the hundredths and divide a decimal to the hundredths (dividend) by a one-digit whole number (divisor). Justify the calculation.	Mission 1, Topic E, Lesson 11-12 Mission 1, Topic F, Lesson 13-16 Mission 2, Topic C, Lesson 10-12 Mission 2, Topic D, Lesson 13-14 Mission 2, Topic G, Lesson 24-27 Mission 2, Topic H, Lesson 28-29 Mission 4, Topic E, Lesson 17-18 Mission 4, Topic G, Lesson 29-31
5.PAFR.2.1	Use a strategy to compute sums and differences of fractions and mixed numbers with unlike denominators and justify the sum or difference to include real-world situations. Limit denominators to 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, 50, and 100.	Mission 3, Topic B, Lesson 3-7 Mission 3, Topic C, Lesson 8-12 Mission 3, Topic D, Lesson 13-14 Mission 4, Topic D, Lesson 10-12
5.PAFR.2.2	Use a strategy to multiply a fraction by a fraction or a fraction by a whole to include real-world situations. Limit denominators to 2, 3, 4, 5, 6, 8, 10, and 12.	Grade 4, Mission 5, Topic A, Lesson 3, 5-6 Grade 4, Mission 5, Topic B, Lesson 7-8 Grade 4, Mission 5, Topic E, Lesson 23-25

SC CCR MATHEMATICS STANDARDS		ZEARN MATH

5.PAFR.2.3	Interpret and represent division of a whole number dividend by a unit fraction divisor and a unit fraction dividend by a whole number divisor and apply to real-world situations. Limit denominators to 2, 3, 4, 5, 6, 8, 10, and 12.	Mission 4, Topic G, Lesson 25-29 Mission 4, Topic H, Lesson 33
5.PAFR.3.1	Determine the least common multiple (LCM) to find a common denominator. Limit denominators to 2, 3, 4, 5, 6, 8, 10, 12, 20, 25, 50, and 100.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
5.PAFR.3.2	Determine the greatest common factor (GCF) of two numbers both less than or equal to 50 to simplify a fraction into its standard form.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
5.PAFR.3.3	Identify a rule that can describe the pattern from the data of a function table and write it as an expression.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
5.PAFR.3.4	Translate a two-step real-world situation into a numerical expression using parentheses as grouping symbols and evaluate the expression.	Mission 2, Topic A, Lesson 1 Mission 2, Topic B, Lesson 3-5 Mission 4, Topic D, Lesson 10 Mission 4, Topic H, Lesson 32

6th Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
6th Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
6.DPSR.1.1	Identify the sample size for a numerical set of data in mathematical and real-world situations.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
6.DPSR.1.2	Create box plots to represent numerical data sets in mathematical and real-world situations.	Mission 8, Topic D, Lesson 16-17
6.DPSR.1.3	Use the shape of the graph to determine whether median or mode best describes the data set.	Mission 8, Topic D, Lesson 14
6.DPSR.1.4	Calculate and interpret the median, mode, range, interquartile range in mathematical and real-world situations.	Mission 8, Topic C, Lesson 9-10 Mission 8, Topic D, Lesson 13-16 Mission 8, Topic E, Lesson 18
6.DPSR.2.1	Given the probability of a random event, expressed as a number from 0 to 1, state the likelihood of the event occurring.	Grade 7, Mission 8, Topic A, Lesson 1-3
6.DPSR.2.2	Find the probability of simple events in mathematical and real-world situations. Limit denominators to 2, 4, 5, 8, 10, 25, 50, and 100.	Grade 7, Mission 8, Topic A, Lesson 1-6
6.DPSR.2.3	Given the probability of an event, identify and calculate the complement of that event.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
Measurement, Geometry, and Spatial Reasoning		
6.MGSR.1.1	Find the area of a triangle, square, rectangle, parallelogram, and trapezoid.	Mission 1, Topic B, Lesson 4-6 Mission 1, Topic C, Lesson 7-10
6.MGSR.1.2	Create nets to represent three dimensional shapes.	Mission 1, Topic E, Lesson 12-15
6.MGSR.1.3	Calculate the surface area of rectangular prisms, right triangular prisms, rectangular pyramids, and right triangular-pyramids using two-dimensional nets.	Mission 1, Topic E, Lesson 12-16 Mission 1, Topic F, Lesson 18 Mission 1, Topic G, Lesson 19

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
6th Grade Standards		Lessons
6.MGSR.1.4	Find the area of composite figures by decomposing them into triangles and rectangles to solve mathematical and real-world situations.	Mission 1, Topic A, Lesson 2-3 Mission 1, Topic D, Lesson 11 Mission 1, Topic G, Lesson 19
6.MGSR.1.5	Calculate the volume of a right rectangular prism using the formula ($V = Bh$) in mathematical and real-world situations.	Mission 1, Topic E, Lesson 15 Mission 4, Topic D, Lesson 14-15 Mission 4, Topic E, Lesson 17
6.MGSR.2.1	Determine if two angles are complementary or supplementary.	Grade 7, Mission 7, Topic A, Lesson 2
6.MGSR.2.2	Determine the measure of angles using a protractor.	Grade 4, Mission 4, Topic B, Lesson 5-8
6.MGSR.3.1	Plot ordered pairs in all four quadrants and identify points on a graph by writing ordered pairs.	Mission 7, Topic C, Lesson 11-15
6.MGSR.3.2	Graph a polygon on a coordinate plane given the coordinates of the vertices.	Mission 7, Topic C, Lesson 15
Numerical Reasoning		
6.NR.1.1	Convert positive rational numbers into equivalent forms among terminating decimals, fractions (including mixed numbers), and percentages. Limit fractions to denominators of 2, 4, 5, 8, 10, 20, 25, 50, 100, and 200.	Mission 3, Topic D, Lesson 10-16
6.NR.2.1	Compare two positive rational numbers and write statements using the symbols for <i>is equal to</i> ($=$), <i>is not equal to</i> ($\neq$), <i>is less than</i> ($<$), and/or <i>is greater than</i> ($>$) in mathematical and real-world situations. Limit fractions to denominators of 2, 4, 5, 8, 10, 20, 25, 50, 100, and 200.	Mission 7, Topic A, Lesson 3-4, 6-7 Mission 7, Topic B, Lesson 8-9 Mission 7, Topic C, Lesson 13
6.NR.2.2	Sort a set of positive rational numbers in ascending and/or descending order in mathematical and real-world situations. Limit sets to no more than 5 numbers. Limit fractions to denominators of 2, 4, 5, 8, 10, 20, 25, 50, 100, and 200.	Mission 7, Topic A, Lesson 4

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
6th Grade Standards		Lessons
6.NR.2.3	Represent quantities with integers in real world situations and explain the meaning of zero.	Mission 7, Topic A, Lesson 1, 5
6.NR.2.4	Identify and compare the opposite value and absolute value of positive and negative rational numbers.	Mission 7, Topic A, Lesson 1-4, 6-7 Mission 7, Topic C, Lesson 11-15
Patterns, Algebra, and Functional Reasoning		
6.PAFR.1.1	Use tables, graphs, verbal descriptions, and equations to represent the relationship between independent and dependent variables of functions.	Mission 6, Topic D, Lesson 16-18
6.PAFR.1.2	Identify the independent and dependent variable of a function in mathematical and real-world situations.	Mission 6, Topic D, Lesson 16-18
6.PAFR.2.1	Identify parts of an algebraic expression using the mathematical terms <i>sum, difference, term, variable, product, factor, quotient, coefficient, and constant</i> .	Mission 1, Topic B, Lesson 5-6 Mission 1, Topic C, Lesson 9-10 Mission 1, Topic F, Lesson 18 Mission 6, Topic B, Lesson 6, 10-11 Mission 6, Topic C, Lesson 14-15
6.PAFR.2.2	Write and evaluate numerical expressions containing powers. Limit to positive whole number bases and positive whole number exponents.	Mission 1, Topic F, Lesson 17-18 Mission 6, Topic C, Lesson 12-15
6.PAFR.2.3	Evaluate numerical expressions with positive whole number bases and positive whole number exponents using the Order of Operations.	Mission 1, Topic B, Lesson 5-6 Mission 1, Topic C, Lesson 9-10 Mission 1, Topic F, Lesson 17-18 Mission 6, Topic B, Lesson 6 Mission 6, Topic C, Lesson 12-15
6.PAFR.2.4	Evaluate numerical expressions with positive whole number bases and positive whole number exponents using the Order of Operations.	Mission 1, Topic B, Lesson 5-6 Mission 1, Topic C, Lesson 9 Mission 1, Topic F, Lesson 18 Mission 6, Topic A, Lesson 1, 3-5 Mission 6, Topic B, Lesson 6-7 Mission 7, Topic B, Lesson 8, 10
6.PAFR.2.5	Write and solve one-step equations and inequalities with one variable involving positive rational numbers in mathematical and real-world situations.	Mission 6, Topic A, Lesson 3-5 Mission 6, Topic B, Lesson 7 Mission 7, Topic B, Lesson 8-10

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
6th Grade Standards		Lessons
6.PAFR.2.6	Interpret the concept of a ratio as the relationship between two quantities, including part-to-part and part-to-whole.	Mission 2, Topic A, Lesson 1-2 Mission 2, Topic B, Lesson 3-5 Mission 9, Topic A, Lesson 4
6.PAFR.2.7	Explain the relationship between ratios and rates, including unit rates.	Mission 2, Topic C, Lesson 10 Mission 3, Topic A, Lesson 1 Mission 3, Topic C, Lesson 5-7 Mission 9, Topic A, Lesson 6
6.PAFR.2.8	Solve ratio and rate problems in real world situations.	Mission 2, Topic C, Lesson 6-10 Mission 2, Topic D, Lesson 11-14 Mission 2, Topic E, Lesson 15-16 Mission 2, Topic F, Lesson 17 Mission 3, Topic B, Lesson 3-4 Mission 3, Topic C, Lesson 5-9 Mission 3, Topic D, Lesson 10-15 Mission 6, Topic D, Lesson 16 Mission 6, Topic E, Lesson 17 Mission 9, Topic A, Lesson 4-6
6.PAFR.2.9	Use one-step dimensional analysis to convert units within the metric or customary systems.	Mission 3, Topic B, Lesson 2-4
6.PAFR.3.1	Represent the solutions of inequalities on a number line and explain that the solution set may contain an infinite number of solutions. Limited to the symbols for <i>is less than</i> ($<$) and <i>is greater than</i> ($>$).	Mission 7, Topic B, Lesson 8-10
6.PAFR.3.2	Identify the multiplicative inverse of a number and multiply multiplicative inverses to find their product is equal to 1.	Grade 7, Mission 5, Topic E, Lesson 15
6.PAFR.3.3	Identify the additive inverse of a number and add additive inverses to find their sum is equal to zero.	Grade 7, Mission 5, Topic A, Lesson 1 Grade 7, Mission 5, Topic B, Lesson 2-7 Grade 7, Mission 6, Topic D, Lesson 18 Grade 7, Mission 7, Topic B, Lesson 6
6.PAFR.3.4	Apply the properties of operations to	Mission 1, Topic B, Lesson 5 Mission 1, Topic C, Lesson 9

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
6th Grade Standards		Lessons
	create equivalent algebraic expressions and justify the properties used. Limit properties to the <i>Identity, Inverse, Commutative, Associative, and Distributive Properties</i> .	Mission 1, Topic F, Lesson 18 Mission 5, Topic D, Lesson 13 Mission 6, Topic B, Lesson 6, 8, 10-11
6.PAFR.3.5	Add, subtract, multiply, and divide integers in mathematical and real-world situations.	Grade 7, Mission 5, Topic A, Lesson 2 Grade 7, Mission 5, Topic B, Lesson 5, 8
6.PAFR.3.6	Add, subtract, multiply, and divide positive fractions, including mixed numbers in mathematical and real-world situations.	Grade 5, Mission 3, Topic D, Lesson 15 Mission 4, Topic A, Lesson 3 Mission 4, Topic B, Lesson 4-9 Mission 4, Topic C, Lesson 10-11 Mission 4, Topic D, Lesson 12-14 Mission 4, Topic E, Lesson 16-17
6.PAFR.3.7	Add, subtract, multiply, and divide multi digit positive decimals, up to the thousandths place, to solve problems in mathematical and real-world situations.	Mission 5, Topic B, Lesson 2-4 Mission 5, Topic C, Lesson 7-8 Mission 5, Topic D, Lesson 12-13 Mission 5, Topic E, Lesson 14-15 Mission 6, Topic A, Lesson 4 Mission 8, Topic C, Lesson 12 Mission 9, Topic A, Lesson 6

7th Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
7th Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
7.DPSR.1.1	Create stem-and-leaf plots to represent numerical data sets in mathematical and real-world situations.	Grade 6, Mission 8, Topic B, Lesson 7
7.DPSR.1.2	Use the shape of the graph to select the measure of center (mean, median, or mode) that best describes the data set.	Mission 8, Topic D, Lesson 15 Mission 8, Topic E, Lesson 20
7.DPSR.1.3	Calculate and interpret the measures of center (<i>mean, median, mode</i>) and spread (<i>mean absolute deviation, interquartile range, range</i>) in mathematical and real-world situations.	Grade 6, Mission 8, Topic C, Lesson 9-12 Grade 6, Mission 8, Topic D, Lesson 13-16 Grade 6, Mission 8, Topic E, Lesson 18
7.DPSR.1.4	Create histograms to represent data sets and interpret histograms to answer questions or draw conclusions about data sets.	Grade 6, Mission 8, Topic B, Lesson 6-8
7.DPSR.2.1	Identify the sample space for a simple event.	Mission 8, Topic A, Lesson 3
7.DPSR.2.2	Calculate and interpret the theoretical probability of a simple random event.	Mission 8, Topic A, Lesson 1, 3-6
7.DPSR.2.3	Calculate and interpret the experimental probability of a random event related to a simple experiment.	Mission 8, Topic A, Lesson 1, 3-6
7.DPSR.2.4	Compare and contrast the experimental and theoretical probabilities for a simple experiment.	Mission 8, Topic A, Lesson 3-6
Measurement, Geometry, and Spatial Reasoning		
7.MGSR.1.1	Identify the parts of a circle. Limit the parts to <i>center, radius, diameter, and chord</i> .	Mission 3, Topic A, Lesson 2
7.MGSR.1.2	Describe the relationship between the <i>radius, diameter, and circumference</i> of a circle.	Mission 3, Topic A, Lesson 3

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
7th Grade Standards		Lessons
7.MGSR.1.3	Solve mathematical and real-world situations involving circumference or area of circles.	Mission 3, Topic A, Lesson 4-5 Mission 3, Topic B, Lesson 7-9 Mission 3, Topic C, Lesson 10-11 Mission 9, Topic A, Lesson 4 Mission 9, Topic C, Lesson 11-12
7.MGSR.1.4	Determine if three given side lengths can form a triangle using the <i>Triangle Inequality Theorem</i> .	Mission 3, Topic A, Lesson 2 Mission 7, Topic B, Lesson 6-10 Mission 7, Topic D, Lesson 17
7.MGSR.1.5	In mathematical and real-world situations, find the volume of right prisms and right pyramids having triangular or quadrilateral bases.	Mission 7, Topic C, Lesson 12-13, 15-16 Mission 7, Topic D, Lesson 17 Mission 9, Topic A, Lesson 4 Mission 9, Topic B, Lesson 5, 9
7.MGSR.1.6	In mathematical and real-world situations, find the surface area of right prisms and right pyramids having triangular or quadrilateral bases.	Mission 7, Topic C, Lesson 14-16 Mission 7, Topic D, Lesson 17 Mission 9, Topic A, Lesson 4 Mission 9, Topic B, Lesson 5, 9
7.MGSR.2.1	Determine the measure of the third angle given the measure of the other two angles of a triangle using the <i>Triangle Sum Theorem</i> .	Grade 8, Mission 2, Topic B, Lesson 6-7, 9
7.MGSR.2.2	Solve mathematical and real-world situations involving dimensions and areas of geometric figures including scale drawings and scale factors.	Mission 1, Topic A, Lesson 1-6 Mission 1, Topic B, Lesson 7-12 Mission 1, Topic C, Lesson 13 Mission 2, Topic A, Lesson 1 Mission 3, Topic B, Lesson 6 Mission 3, Topic C, Lesson 11 Mission 9, Topic A, Lesson 4 Mission 9, Topic C, Lesson 13
7.MGSR.2.3	Identify the relationships and measures among angles formed by two intersecting lines, given the measure of one angle. Limit to supplementary, complementary, vertical, and adjacent relationships.	Mission 7, Topic A, Lesson 2-5
7.MGSR.2.4	Write and solve equations to solve mathematical and real-world situations involving the relationships among angles formed by two intersecting lines. Limit	Mission 7, Topic A, Lesson 4-5

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
7th Grade Standards		Lessons
	to supplementary, complementary, vertical, and adjacent relationships.	
7.MGSR.3.1	Find distances between ordered pairs on the coordinate plane, limited to the same x-coordinate or the same y-coordinate.	Grade 6, Mission 7, Topic C, Lesson 14
Numerical Reasoning		
7.NR.1.1	Convert rational numbers into equivalent forms among fractions (including mixed numbers), decimals, and percentages. Exclude the conversion of repeating decimals to fractions.	Mission 4, Topic A, Lesson 4-5 Mission 4, Topic B, Lesson 6-9
7.NR.2.1	Compare two rational numbers and write statements using <i>is equal to</i> ($=$), <i>is not equal to</i> ($\neq$), <i>is less than</i> ($<$), <i>is greater than</i> ($>$), <i>is greater than or equal to</i> ($\geq$), and/or <i>is less than or equal to</i> ($\leq$) in mathematical and real-world situations.	Grade 6, Mission 7, Topic A, Lesson 3 Grade 6, Mission 7, Topic B, Lesson 8
Patterns, Algebra, and Functional Reasoning		
7.PAFR.1.1	Apply proportional reasoning to solve problems in mathematical and real-world situations involving ratios and percentages.	Mission 3, Topic A, Lesson 5 Mission 4, Topic B, Lesson 6-9 Mission 4, Topic C, Lesson 10-15 Mission 4, Topic D, Lesson 16 Mission 9, Topic A, Lesson 1-4 Mission 9, Topic B, Lesson 6, 8 Mission 9, Topic C, Lesson 13
7.PAFR.1.2	Create a model with functions that address a proportional relationship in real-world situations.	Mission 2, Topic A, Lesson 2-3 Mission 2, Topic B, Lesson 4-6 Mission 2, Topic C, Lesson 7-9 Mission 2, Topic D, Lesson 10-13 Mission 2, Topic E, Lesson 14-15 Mission 3, Topic A, Lesson 1, 3, 5 Mission 3, Topic B, Lesson 7 Mission 4, Topic A, Lesson 3-5 Mission 5, Topic C, Lesson 9, 12 Mission 5, Topic D, Lesson 14 Mission 9, Topic A, Lesson 3 Mission 9, Topic B, Lesson 5

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
7th Grade Standards		Lessons
		Grade 8, Mission 3, Topic A, Lesson 2-4
7.PAFR.1.3	Identify the constant of proportionality within proportional relationships.	Mission 2, Topic A, Lesson 2-3 Mission 2, Topic B, Lesson 4-7 Mission 2, Topic C, Lesson 9 Mission 2, Topic D, Lesson 11-13 Mission 2, Topic E, Lesson 14
7.PAFR.2.1	Write and solve multi-step equations and inequalities in one variable involving rational numbers in mathematical and real-world situations.	Mission 5, Topic E, Lesson 15-16 Mission 6, Topic A, Lesson 4-5 Mission 6, Topic B, Lesson 7-12 Mission 6, Topic C, Lesson 13-17 Mission 7, Topic A, Lesson 5 Mission 9, Topic A, Lesson 3 Mission 9, Topic B, Lesson 7
7.PAFR.2.2	Write and evaluate expressions in one variable that model mathematical and real-world situations.	Mission 6, Topic B, Lesson 12
7.PAFR.2.3	Compute unit rates, including those involving complex fractions with like or different units.	Mission 2, Topic C, Lesson 8 Mission 4, Topic A, Lesson 2-3 Mission 9, Topic B, Lesson 5
7.PAFR.2.4	Use dimensional analysis to convert units between metric and customary systems.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
7.PAFR.3.1	Simplify numerical expressions that include integer exponents using the laws of exponents: the <i>Product of Powers</i> , <i>Quotient of Powers</i> , <i>Power of a Power</i> , <i>Power of a Product</i> , <i>Power of a Quotient</i> , <i>Zero Power</i> , and <i>Negative Exponent</i> .	Grade 8, Mission 7, Topic B, Lesson 2-5
7.PAFR.3.2	Identify linear expressions that are equivalent.	Mission 6, Topic D, Lesson 18-22
7.PAFR.3.3	Recognize that algebraic expressions may have a variety of equivalent forms and determine an appropriate form for a given real-world situation.	Mission 6, Topic B, Lesson 12
7.PAFR.3.4	Factor linear expressions with integer coefficients using the greatest common factor (GCF).	Mission 6, Topic D, Lesson 19

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
7th Grade Standards		Lessons
7.PAFR.3.5	Apply all operations with rational numbers to solve problems in mathematical and real-world situations.	Mission 3, Topic C, Lesson 11 Mission 5, Topic B, Lesson 2-4, 7 Mission 5, Topic C, Lesson 8-9, 12 Mission 5, Topic E, Lesson 15-16 Mission 5, Topic F, Lesson 17 Mission 6, Topic A, Lesson 2-6 Mission 6, Topic B, Lesson 11-12

8th Grade

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
8th Grade Standards		Lessons
Data, Probability, and Statistical Reasoning		
8.DPSR.1.1	Create and analyze scatter plots to represent numerical data sets in mathematical and real-world situations.	Mission 6, Topic A, Lesson 1-2 Mission 6, Topic B, Lesson 3-8
8.DPSR.1.2	Draw inferences about data sets from two populations using the shape of the distribution, measures of center, and measures of variability. Limit measures to <i>mean, median, mode, range, mean absolute deviation, and interquartile range</i> .	Grade 7, Mission 8, Topic C, Lesson 11 Grade 7, Mission 8, Topic D, Lesson 15-16, 18-19 Grade 7, Mission 8, Topic E, Lesson 20 Grade 7, Mission 9, Topic A, Lesson 3
8.DPSR.1.3	Describe how adding and deleting data throughout the data set can affect the mean, median, mode, and distribution of the data set.	<i>It is recommended that teachers use supplemental materials to fully address this standard.</i>
8.DPSR.1.4	For two data sets (numerical or graphical), compare and interpret the centers, spreads, and overlap of data to draw inferences about data in mathematical and real-world situations. Limit displays to double line graphs, back-to-back stem-and-leaf plots, and double box plots.	Grade 7, Mission 8, Topic C, Lesson 11 Grade 7, Mission 8, Topic D, Lesson 18-19
8.DPSR.2.1	Determine the sample space for a compound event.	Grade 7, Mission 8, Topic B, Lesson 8
8.DPSR.2.2	Calculate and interpret the probability of compound independent and dependent events.	Grade 7, Mission 8, Topic B, Lesson 7-10
Measurement, Geometry, and Spatial Reasoning		
8.MGSR.1.1	Given the geometric formulas, find the volume of cones, cylinders, and spheres in mathematical and real-world situations.	Mission 5, Topic D, Lesson 13-16 Mission 5, Topic E, Lesson 17-21 Mission 5, Topic F, Lesson 22

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
8th Grade Standards		Lessons
8.MGSR.1.2	Find the distance between any two points in the coordinate plane using the <i>Pythagorean Theorem</i> .	Mission 8, Topic C, Lesson 11
8.MGSR.1.3	Given the <i>Pythagorean Theorem</i> , determine unknown side lengths in right triangles in mathematical and real-world situations.	Mission 8, Topic C, Lesson 6-8, 10
8.MGSR.1.4	Determine if a given set of sides forms a right triangle.	Mission 8, Topic C, Lesson 6-7
8.MGSR.2.1	Determine missing angle measurements created when parallel lines are cut by a transversal.	Mission 1, Topic D, Lesson 14-16
8.MGSR.2.2	Determine if two-dimensional figures are congruent or similar.	Mission 1, Topic C, Lesson 11-13 Mission 2, Topic B, Lesson 6-9
8.MGSR.2.3	Identify the congruent corresponding angles of similar polygons.	Mission 1, Topic C, Lesson 11-13
8.MGSR.2.4	Discover and apply the <i>Exterior Angle Theorem</i> of triangles to find a missing angle.	Mission 2, Topic B, Lesson 7-8
8.MGSR.2.5	Apply proportional reasoning to find the missing side lengths of two similar figures.	Mission 2, Topic B, Lesson 6-7, 9
8.MGSR.3.1	Identify the transformation as a rotation, reflection, and/or translation. Limit rotations to multiples of 90 degrees centered on the origin.	Mission 1, Topic A, Lesson 2-6 Mission 1, Topic B, Lesson 7-10 Mission 1, Topic C, Lesson 11, 13 Mission 1, Topic D, Lesson 14 Mission 3, Topic B, Lesson 8
8.MGSR.3.2	Identify congruent angles and congruent line segments of a preimage and its image.	Mission 1, Topic C, Lesson 11-13
8.MGSR.3.3	Translate geometric figures vertically and/or horizontally.	Mission 1, Topic A, Lesson 3-5
8.MGSR.3.4	Reflect geometric figures with respect to the x-axis and/or y-axis.	Mission 1, Topic A, Lesson 4-6

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
8th Grade Standards		Lessons
8.MGSR.3.5	Rotate geometric figures 90, 180, and 270 degrees, both clockwise and counterclockwise, about the origin in a coordinate plane.	Mission 1, Topic A, Lesson 3-5 Mission 1, Topic B, Lesson 8 Mission 2, Topic B, Lesson 6-7
8.MGSR.3.6	Create a dilation using a given scale factor and describe the effect of a dilation.	Mission 2, Topic A, Lesson 1-5
8.MGSR.3.7	Describe the effect of a series of transformations, including <i>dilations, translations, rotations, and reflections</i> , on two-dimensional figures using coordinates on the coordinate plane.	Mission 1, Topic A, Lesson 6
Numerical Reasoning		
8.NR.1.1	Convert any form of a rational number to any other form including fractions (mixed numbers), decimals, and percentages.	Mission 8, Topic E, Lesson 14-15
8.NR.2.1	Compare real numbers and write statements using <i>is equal to ($=$), is not equal to ($\neq$), is less than ($<$), is greater than ($>$), is greater than or equal to ($\geq$), or is less than or equal to ($\leq$).</i>	Mission 8, Topic B, Lesson 4-5 Mission 8, Topic D, Lesson 12-13
8.NR.2.2	Classify and order the subsets of real numbers in the number system including natural, whole, integer, rational, and irrational numbers.	Mission 8, Topic B, Lesson 3-5 Mission 8, Topic E, Lesson 15
Patterns, Algebra, and Functional Reasoning		
8.PAFR.1.1	Define an equation in slope-intercept form ($y = mx + b$) as being a linear function.	Mission 5, Topic C, Lesson 8
8.PAFR.1.2	Identify and describe the constant rate of change and the y-intercept of a linear function.	Mission 5, Topic C, Lesson 8-10
8.PAFR.1.3	Determine if a graph, table, mapping, or verbal description is a function (linear or nonlinear) or not a function.	Mission 5, Topic C, Lesson 8-9
8.PAFR.1.4	Describe the key features of given functions, including <i>domain, range, intervals of increasing or decreasing, constant, discrete, continuous, and intercepts</i> .	Mission 5, Topic B, Lesson 5-6 Mission 5, Topic C, Lesson 10

SC CCR MATHEMATICS STANDARDS		ZEARN MATH
8th Grade Standards		Lessons
8.PAFR.1.5	Use multiple representations including mappings, tables, graphs, verbal description, and equations (only when linear) of two functions to compare the functions and draw conclusions.	Mission 5, Topic B, Lesson 7 Mission 5, Topic C, Lesson 8
8.PAFR.1.6	Translate among the multiple representations, including mappings, tables, graphs, verbal description, and equations (only when linear) of a function.	Mission 5, Topic B, Lesson 3-7 Mission 5, Topic C, Lesson 8-9
8.PAFR.2.1	Solve multi-step one-variable equations and inequalities with variables on both sides with rational coefficients.	Mission 4, Topic B, Lesson 3-9
8.PAFR.2.2	Describe single-variable equations as having one solution, no solution, or an infinite number of solutions.	Mission 4, Topic B, Lesson 7-9
8.PAFR.2.3	Identify the rate of change for a linear function as the slope of the line.	Mission 5, Topic C, Lesson 8-10
8.PAFR.2.4	Explain why the slope, m , is the same between any two distinct points on a linear graph.	Mission 2, Topic C, Lesson 10-12
8.PAFR.2.5	Given a table or a graph, identify the slope and the y-intercept of a line and write a linear equation to express that line.	Mission 2, Topic C, Lesson 10-12 Mission 3, Topic B, Lesson 5-8 Mission 3, Topic C, Lesson 9-11
8.PAFR.3.1	Analyze patterns of perfect squares and perfect cubes to evaluate square roots and cube roots. Limit to square roots less than or equal to 400 and cube roots less than or equal to 1,000.	Mission 8, Topic B, Lesson 2-5 Mission 8, Topic C, Lesson 10 Mission 8, Topic D, Lesson 12-13
8.PAFR.3.2	Approximate non-perfect square roots and cube roots to nearest tenth. Limit to square roots less than or equal to 400 and cube roots less than or equal to 1,000.	Mission 8, Topic B, Lesson 2-5 Mission 8, Topic D, Lesson 12-13
8.PAFR.3.3	Apply laws of exponents to simplify algebraic expressions involving no more than three variables and integer exponents.	Mission 7, Topic B, Lesson 2-8 Mission 7, Topic C, Lesson 11, 14
