

Helping All Students Access Grade-Level Math: Using Zearn with Eureka Math² K-8

Zearn is a digital learning platform designed to support all students in building a deep, lasting understanding of grade-level math. This guide shows how Zearn works alongside Eureka Math² to help every student succeed.

About Zearn: A Daily, Coherent Companion to Your Core Math Curriculum

Zearn is designed to work alongside your core math curriculum every day — reinforcing key ideas through a research-grounded learning progression. Zearn's digital lessons complement and strengthen what you're already teaching, giving every student more opportunities to explore, persevere, and break through in grade-level math.

When learning with Zearn, students:

- Develop both procedural fluency and conceptual understanding, strengthening automaticity with math facts while deepening their grasp of key mathematical ideas.
- Engage with math through a Concrete–Representational–Abstract (CRA) progression, moving from objects and visual models to symbols and equations.
- Receive just-in-time, embedded support that helps them work through challenges while maintaining grade-level rigor.

Key Steps to Effective Zearn Usage

Within each grade, Zearn's digital content is organized into units — called Missions. Each Zearn Mission focuses on a related set of grade-level math ideas, with lessons intentionally sequenced to build and deepen understanding. Students get the most out of Zearn when their Mission is connected to the concepts they are currently studying in class.

To use Zearn effectively, assign the Mission identified in this guide for your current unit and let students progress through the Mission lesson by lesson, in order, at their own pace. The goal is for students to complete at least three grade-level lessons per week, or 90 over the course of the year. The steps below outline how to put this into practice.

1. At the start of a new unit, assign students to the first lesson of the recommended Mission and let them progress at their own pace — no daily reassignment needed.

2. Set a goal for students to complete three grade-level lessons each week. Protect about 90 minutes of weekly instructional time to make this achievable.

3. Monitor progress during Zearn time and across the week using real-time reports. Use the data to identify students on track to complete three grade-level lessons per week and those who may need additional support.

4. Support and celebrate students by recognizing progress toward weekly goals and providing additional support to help every student continue moving forward.

Kindergarten Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Counting and Cardinality (33 lessons)	Mission 1: Numbers to 10 (30 lessons)
Module 2: Two-Dimensional and Three-Dimensional Shapes (16 lessons)	Mission 2: Two-Dimensional and Three-Dimensional Shapes (8 lessons)
Module 3: Comparison (22 lessons)	Mission 3: Comparison of Length, Weight, Capacity, and Numbers to 10 (25 lessons)
Module 4: Composition and Decomposition (19 lessons)	Mission 4: Number Pairs, Addition and Subtraction to 10 (33 lessons)
Module 5: Addition and Subtraction (27 lessons)	<i>Note: When you begin teaching Eureka Math² Module 5, students should continue working through Zearn Mission 4.</i>
Module 6: Place Value Foundations (24 lessons)	Mission 5: Numbers 10-20 and Counting to 100 (19 lessons) Mission 6: Analyzing, Comparing, and Composing Shapes (6 lessons) <i>Note: When students complete Zearn Mission 5, they will automatically progress to Zearn Mission 6—no additional action is needed.</i>

Grade 1 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Counting, Comparison, and Addition (25 lessons)	Mission 1: Add and Subtract Small Numbers (32 lessons)
Module 2: Addition and Subtraction Relationships (23 lessons)	<i>Note: When you begin teaching Eureka Math² Module 2, students should continue working through Zearn Mission 1.</i>
Module 3: Properties of Operations to Make Easier Problems (26 lessons)	Mission 2: Meet Place Value (23 lessons)
Module 4: Comparison and Composition of Length Measurements (14 lessons)	Mission 3: Measure Length (10 lessons)
Module 5: Place Value Concepts to Compare, Add, and Subtract (25 lessons)	Mission 4: Add and Subtract Big Numbers (23 lessons)
Module 6: Attribute of Shapes · Advancing Place Value, Addition, and Subtraction (31 lessons)	Mission 5: Work with Shapes (13 lessons) Mission 6: Add and Subtract to 100 (18 lessons) <i>Note: When students complete Zearn Mission 5, they will automatically progress to Zearn Mission 6—no additional action is needed.</i>

Grade 2 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Place Value Concepts Through Metric Measurement and Data • Place Value, Counting, and Comparing Within 1,000 (38 lessons)	Mission 1: Add and Subtract Friendly Numbers (8 lessons) Mission 2: Explore Length (10 lessons) Mission 3: Counting and Place Value (19 lessons) <i>Note: When students complete Zearn Mission 1, they will automatically progress to Zearn Missions 2 and 3—no additional action is needed.</i>
Module 2: Addition and Subtraction within 200 (27 lessons)	Mission 4: Add, Subtract, and Solve (29 lessons)
Module 3: Shapes and Time With Fraction Concepts (19 lessons)	Mission 8: Shapes, Time, and Fractions (12 lessons)
Module 4: Addition and Subtraction within 1,000 (24 lessons)	Mission 5: Add and Subtract Big Numbers (20 lessons)
Module 5: Money, Data, and Customary Measurement (16 lessons)	Mission 7: Length, Money, and Data (19 lessons)
Module 6: Multiplication and Division Foundations (18 lessons)	Mission 6: Equal Groups (16 lessons)

Grade 3 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Multiplication and Division with Units of 2, 3, 4, 5, and 10 (23 lessons)	Mission 1: Multiply and Divide Friendly Numbers (21 lessons)
Module 2: Place Value Concepts Through Metric Measurement (25 lessons)	Mission 2: Measure It (21 lessons)
Module 3: Multiplication and Division with Units of 0, 1, 6, 7, 8, and 9 (25 lessons)	Mission 3: Multiply and Divide Tricky Numbers (21 lessons)
Module 4: Multiplication and Area (19 lessons)	Mission 4: Find the Area (16 lessons)
Module 5: Fractions as Numbers (27 lessons)	Mission 5: Fractions as Numbers (29 lessons)
Module 6: Geometry, Measurement, and Data (26 lessons)	Mission 6: Display Data (9 lessons) Mission 7: Shapes and Measurement (19 lessons) <i>Note: When students complete Zearn Mission 6, they will automatically progress to Zearn Mission 7—no additional action is needed.</i>

Grade 4 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Place Value Concepts for Addition and Subtraction (24 lessons)	Mission 1: Add, Subtract, and Round (18 lessons) Mission 2: Measure and Solve (5 lessons) <i>Note: When students complete Zearn Mission 1, they will automatically progress to Zearn Mission 2—no additional action is needed.</i>
Module 2: Place Value Concepts for Multiplication and Division (26 lessons)	Mission 3: Multiply and Divide Big Numbers (34 lessons)
Module 3: Multiplication and Division of Multi-Digit Numbers (24 lessons)	<i>Note: When you begin teaching Eureka Math² Module 3, students should continue working through Zearn Mission 3.</i>
Module 4: Foundations for Fraction Operations (34 lessons)	Mission 5: Equivalent Fractions (38 lessons)
Module 5: Place Value Concepts for Decimal Fractions (14 lessons)	Mission 6: Decimal Fractions (15 lessons)
Module 6: Angle Measurements and Plane Figures (20 lessons)	Mission 4: Construct Lines, Angles, and Shapes (14 lessons) Mission 7: Multiply and Measure (12 lessons)

***Zearn Tip:** When students complete Zearn Mission 4, assign them to Zearn Mission 7. Midway through Eureka Math² Module 6, assign any students still on Zearn Mission 4 to Mission 7 so they can continue to progress with the class.*

Grade 5 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Place Value Concepts for Multiplication and Division with Whole Numbers (20 lessons)	Mission 2: Base Ten Operations (29 lessons)
Module 2: Addition and Subtraction with Fractions (17 lessons)	Mission 3: Add and Subtract Fractions (16 lessons)
Module 3: Multiplication and Division with Fractions (22 lessons)	Mission 4: Multiply and Divide Fractions and Decimals (32 lessons)
Module 4: Place Value Concepts for Decimal Operations (30 lessons)	Mission 1: Place Value with Decimal Fractions (16 lessons)
Module 5: Addition and Multiplication with Area and Volume (28 lessons)	Mission 5: Volume, Area, and Shapes (19 lessons)
Module 6: Foundations to Geometry in the Coordinate Plane (20 lessons)	Mission 6: The Coordinate Plane (24 lessons)

Grade 6 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Ratios, Rates, and Percents (26 lessons)	Mission 2: Introducing Ratios (16 lessons) Mission 3: Unit Rates and Percentages (14 lessons) <i>Note: When students complete Zearn Mission 2, they will automatically progress to Zearn Mission 3—no additional action is needed.</i>
Module 2: Operations with Fractions and Multi-Digit Numbers (24 lessons)	Mission 4: Dividing Fractions (16 lessons) Mission 5: Arithmetic in Base Ten (14 lessons) <i>Note: When students complete Zearn Mission 4, they will automatically progress to Zearn Mission 5—no additional action is needed.</i>
Module 3: Rational Numbers (17 lessons)	Mission 7: Rational Numbers (18 lessons)
Module 4: Expressions and One-Step Equations (25 lessons)	Mission 6: Expressions and Equations (16 lessons)
Module 5: Area, Surface Area, and Volume (19 lessons)	Mission 1: Area and Surface Area (17 lessons)
Module 6: Statistics (22 lessons)	Mission 8: Data Sets and Distributions (17 lessons)

Grade 7 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Ratios and Proportional Relationships (20 lessons)	Mission 1: Scale Drawings (9 lessons) Mission 2: Introducing Proportional Relationships (14 lessons) <i>Zearn Tip: When students complete Zearn Mission 1, they will automatically progress to Zearn Mission 2—no additional action is needed. Midway through Eureka Math² Module 1, assign any students still on Zearn Mission 1 to Mission 2 so they can continue to progress with the class.</i>
Module 2: Operations with Rational Numbers (26 lessons)	Mission 5: Rational Number Arithmetic (14 lessons)
Module 3: Expression, Equations, and Inequalities (23 lessons)	Mission 6: Expressions, Equations, and Inequalities (22 lessons)
Module 4: Geometry (26 lessons)	Mission 7: Angles, Triangles, and Prisms (14 lessons) Mission 3: Measuring Circles (9 lessons) <i>Zearn Tip: When students complete Zearn Mission 7, assign them to Zearn Mission 3. Midway through Eureka Math² Module 4, assign any students still on Zearn Mission 7 to Mission 3 so they can continue to progress with the class.</i>
Module 5: Percent and Applications of Percent (24 lessons)	Mission 4: Proportional Relationships and Percentages (14 lessons)

Module 6: Probability and Populations
(19 lessons)

Mission 8: Probability and Sampling
(17 lessons)

Grade 8 Learning progression

This table shows the recommended Zearn Mission for each Eureka Math² Module. Refer to it each time you begin a new Module to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Module, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Eureka Math ²	Zearn Math Supporting Digital Content
Module 1: Scientific Notation, Exponents, and Irrational Numbers (24 lessons)	Mission 7: Exponents and Scientific Notation (15 lessons) Mission 8: Pythagorean Theorem and Irrational Numbers (15 lessons) <i>Note: When students complete Zearn Mission 7, they will automatically progress to Zearn Mission 8—no additional action is needed.</i>
Module 2: Rigid Motions and Congruent Figures (22 lessons)	Mission 1: Rigid Transformations and Congruence (14 lessons)
Module 3: Dilations and Similar Figures (17 lessons)	Mission 2: Dilations, Similarity, and Introducing Slope (12 lessons)
Module 4: Linear Equations in One and Two Variables (27 lessons)	Mission 3: Linear relationships (13 lessons)
Module 5: Systems of Linear Equations (14 lessons)	Mission 4: Linear Equations and Linear Systems (14 lessons)
Module 6: Functions and Bivariate Statistics (25 lessons)	Mission 5: Functions and Volume (18 lessons) Mission 6: Associations in Data (10 lessons) <i>Note: When students complete Zearn Mission 5, they will automatically progress to Zearn Mission 6.</i>
